# Welcome

## Welcome to Consensus Invest.

We invest in exceptional entrepreneurs with the passion of bringing brilliant ideas into reality.

Our primary focus is

- ✓ **Technologies** (Software & Robots)
- ✓ **Health** (Technology & Medicine)

In particular, we like ideas that challenge the way we see the world today...

### Tomas Vivic

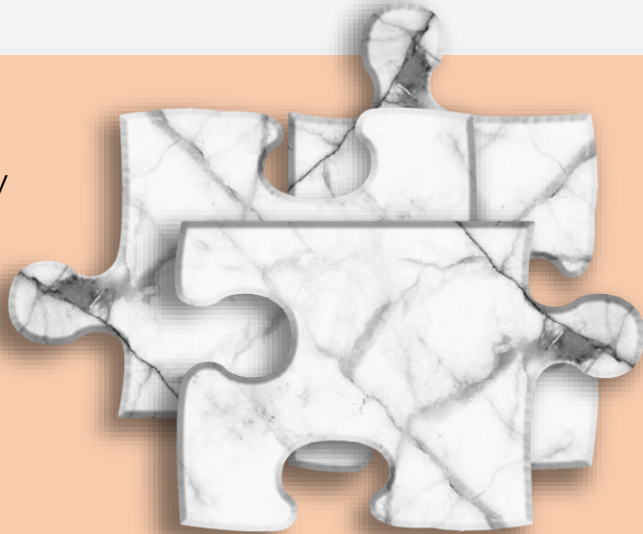

- *+15 years of leadership in financial sector as CEO*
- *Entrepreneur with 2 successful exits*
- *MSc in economics and business*

### Michael Rehné Christiansen

- *20 year in Technologies as Manager*
- *10 Years in Medical Branch*
- *5 Years in Investor circles.*

## Seeds for Growth

As a private investment company funded by a serial entrepreneur we can act differently and more flexibly than most other VC's.

Our overhead is limited, we invest on the same terms as the entrepreneurs and our timeline to close a deal is short. We are passionate in supporting our portfolio companies and make a real personal commitment to each one.

## Capital for Growth

We have found the most brilliant persons to lead and develop the companies from sales people to technicians to CTO, CFO, CEO and Board members.

We typically invest from  
*50 000 Euro to 50 M Euro*

We also cooperate with other Angels or VC's.

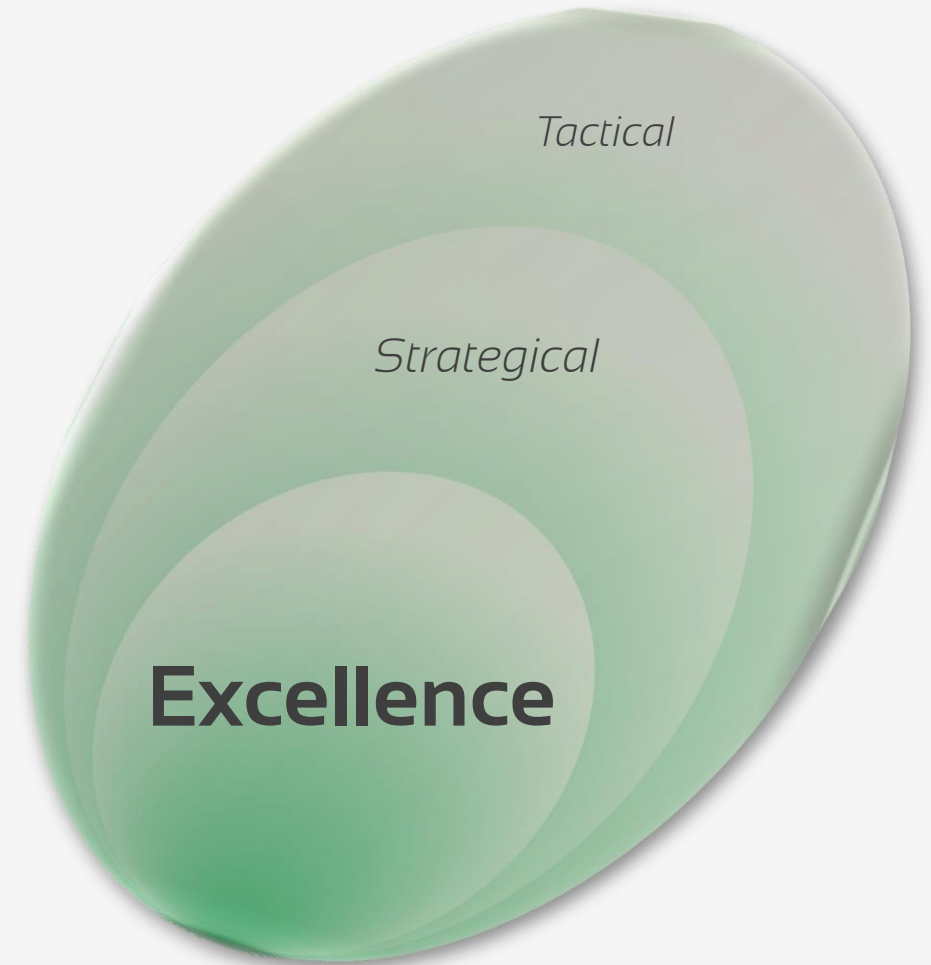

# We understand

Our background is like yours – the capital we invest is derived from entrepreneurship.

We've personally faced a lot of the challenges an early-stage company encounters, and we've certainly made our share of mistakes.

We understand what you are facing and bring our experiences, resources, network and efforts together, to create a team that is committed to working with you for the long haul.

# How we make IT!

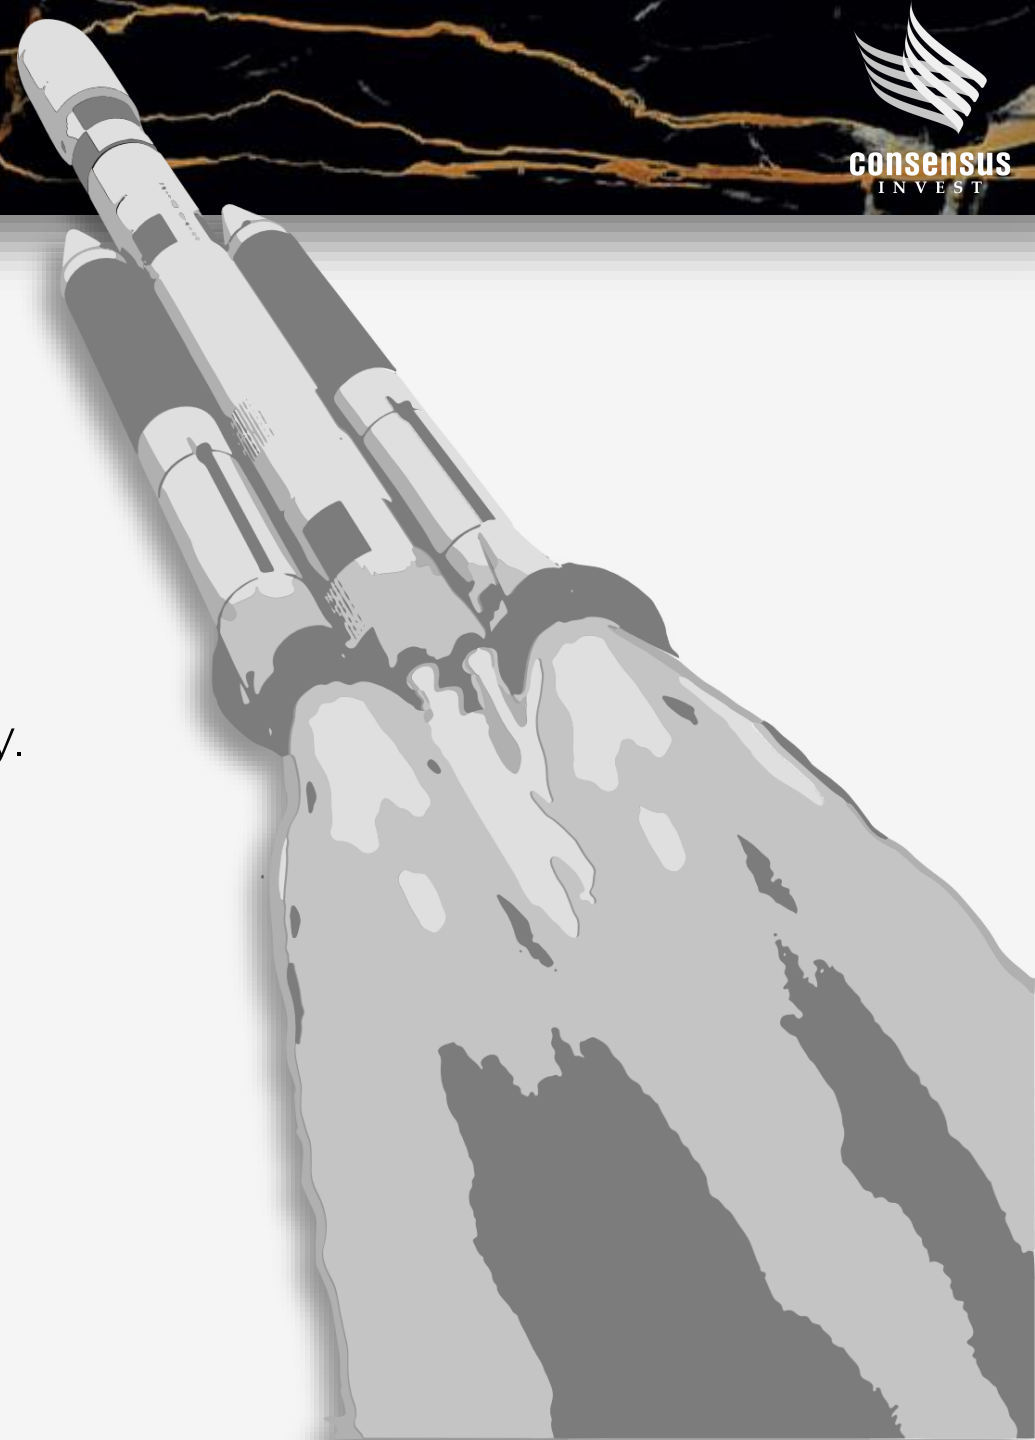

## **We are a dedicated, active partner.**

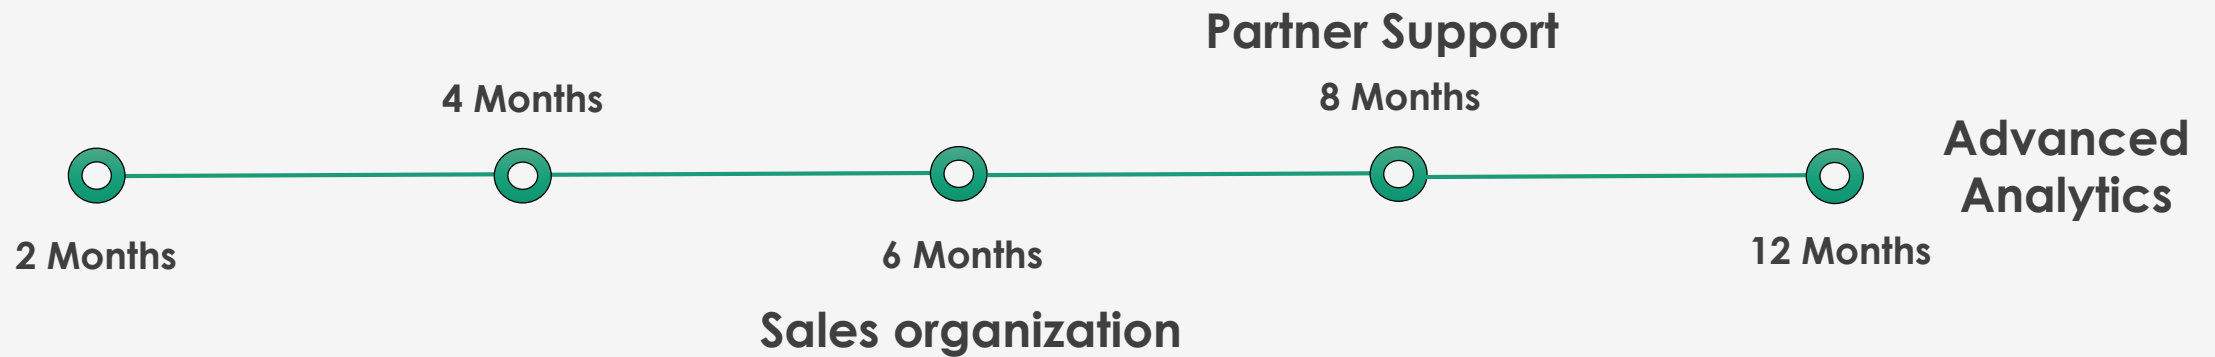

Only if we can offer you the right knowledge, combined with capital, we will invest in your company.

We will provide hands-on help in building your business and refining your ideas for success.

We can broaden your management team, directly or via our network by taking a seat on the board to influence and take the right decisions.

# We are in it for the short or long run

Our background is like yours – the capital we invest is derived from entrepreneurship.

We've personally faced a lot of the challenges an early-stage company encounters, and we've certainly made our share of mistakes.

We understand what you are facing and bring our experiences, resources, network and efforts together, to create a team that is committed to working with you for the long haul.
